If you're proud to be British then you, like us, have to be worried about the future of Great Britain.

The nation that once dominated the world – and in so many ways made the world a better place – is being torn apart.

Wicked and corrupt politicians are hell-bent on destroying our country, and the Lying Press help them at every turn.

The nation that once dominated the world – and in so many ways made the world a better place – is being torn apart.

Wicked and corrupt politicians are hell-bent on destroying our country, and the Lying Press help them at every turn.

The Scottish National Party are the biggest threat to the unity of Great Britain. The SNP pose as 'nationalists', but in reality they're communists.

Nicola Sturgeon runs the SNP with a coven of fanatical lesbians and the help of 'former' members of the completely Marxist Scottish Socialist Party. They pretend to love Scotland, but they support mass immigration and turning the Scots into a minority in their own country, just like has already been done in large parts of England.

Together with anti-British traitors in the BBC and Westminster, the SNP grab every opportunity to divide us. They know that, working together in a United Kingdom, the indigenous peoples of these islands

were unbeatable. But broken apart, we'd be easy meat for the European Union and other hostile forces.

Whether English or Scottish, or Welsh or from Northern Ireland, we're all proud of our own 'Home Nation'. But wars and conflict between each other are in the past. And in the past they must remain.

Yes, we're different, but we're all part of the same Great British family. Like every family, we may have disagreements, but we Britons belong together, and we must stick together.

It's understandable that people in England, Wales and Northern Ireland resent Nicola Sturgeon's shrill demands for both money and independence.

It's understandable that Scots resent being ignored or treated as guinea pigs by arrogant English politicians in the pockets of greedy big business.

But the blame belongs with the politicians. The hostility stirred up by their policies and their failure should be directed at them, not stirred up between ordinary Brits like us.

That's why the British Freedom Party is organising in each of the four Home Nations. We must all stand together. Because the British, United, will never be Defeated!

Like every family, we may have disagreements, but we Britons belong together

Who's REALLY Behind the BLM Gangs?

We're all sick of the violence, lies and anti-white racism that pour out of Black Lives Matter.

With the help of the liberal Lying Press, the BLM thugs have created a climate of fear and

hatred that is tearing America apart and spilling over into Britain as well.

No normal Brits are fooled by BLM propaganda that says that being 'discriminated against' makes you

burn down your own neighbourhood. But not enough people understand just who is funding and running BLM – and why. The stunning truth is that...

Its corporate donors include Goldman Sachs, Google, Time Warner, Walmart, CitiGroup, Wells Fargo, military-industrial complex corporations such as Northrop Grumman, and Big Pharma companies including America's Health Insurance Plans and Pharmaceutical Research and Manufacturers of America.

Politico revealed (13/11/2015) more about the big capitalists and liberal globalists funding BLM's divisive and supposedly anti-System campaigns.

"Some of the biggest donors on the left plan to meet behind closed doors next week in Washington with

Bell heir Rob McKay, to build a permanent infrastructure to advance liberal ideas and causes. Donors are required to donate at least \$200,000 a year to recommended groups, and their combined donations to those groups now total more than \$500 million."

In 2015, the DA recommended "its donors step up check writing to a handful of endorsed groups that have supported the Black Lives Matter movement."

BLM Movement groups which have received support from the Democracy Alliance include the Black Youth Project 100, the Center for Popular Democracy, the Black Civic Engagement Fund, Color of Change and the Advancement Project.

What sort of 'ideals' is all this big capitalist money promoting? The key organisation of the Black Lives Matter (BLM) movement, is officially called Black Lives Matter Global Network Foundation,

"The BLMF provides grants, movement building resources, and technical assistance to

"universal basic income," and free college for blacks.

Faced with losing support over its most extreme policies, the BLMF recently removed a section of its website calling for a disruption of "the Western-prescribed nuclear family."

"We foster a queer affirming network. When we gather, we do so with the intention of freeing ourselves from the tight grip of heteronormative thinking, or rather, the belief that all in the world are heterosexual (unless s/he or they disclose otherwise)," said the now censored section.

They continue, however, to call for "reproductive justice", code words for abortion on demand and proclaim "We affirm the lives of Black queer and trans folks, disabled folks, undocumented folks, folks with records, women, and all Black lives along the gender spectrum."

What do we know about the people promoting these twisted ideas and using them to tear America apart and wind

We aim to do so with a mixture of fearless political incorrectness and plain, honest English. We neither take our readers for fools nor use pseudo-intellectual waffle. We speak of serious matters for the Silent Majority.

We don't do this for fun, we certainly don't do it for profit; we do it because someone has to, because our people and nation face a convergence of catastrophes like none other in our entire history.

The British Freedom Party does not waste time or insult your intelligence by claiming that we or anyone else can wave a magic political wand and put right all the wrongs that have been done to Britain and to her peoples in decades of deliberate destruction.

In growing areas, we are now the minority in our homeland, and we have to plan and organise accordingly. For the indigenous Britons will long remain the largest minority; our job is to provide the ideals and the practical strategies to make them the most confident, united and organised minority.

"groups associated with the BLM Movement have taken in \$133 million since 2013. Organizations associated with liberal billionaire George Soros are said to have provided at least \$33 million to various BLM movement groups since 2016."

"The Ford Foundation and Borealis Philanthropy recently announced the formation of the Black-Led Movement Fund [BLMF], a six-year pooled donor campaign aimed at raising \$100 million for the Movement for Black Lives coalition.

"That funding comes in addition to more than \$33 million in grants to the Black Lives Matter movement from top Democratic Party donor George Soros through his Open Society Foundations, as well as grant-making from the Center for American Progress."

The Center for American Progress was closely linked with the Obama regime and has been widely criticised for its slavish support for Saudi Arabia, the world's biggest exporter of Islamic terrorism and the Wahhabi ideology that underpins it. The CAP has also

been dogged by accusations of secrecy about its funding.

What is known on that front, however, is that this major BLM donor received \$45 million in 2014 alone from a variety of sources, including individuals, foundations, unions, and corporations. Politico revealed (13/11/2015) more about the big capitalists and liberal globalists funding BLM's divisive and supposedly anti-System campaigns.

"Some of the biggest donors on the left plan to meet behind closed doors next week in Washington with leaders of the Black Lives Matter movement and their allies to discuss funding the burgeoning protest movement, *Politico* has learned.

"The meetings are taking place at the annual winter gathering of the Democracy Alliance major liberal donor club, which is expected to draw Democratic financial heavyweights, including Tom Steyer and Paul Egerman.

"The Democracy Alliance was created in 2005 by a handful of major donors, including billionaire financier George Soros and Taco

Bell heir Rob McKay, to build a permanent infrastructure to advance liberal ideas and causes. Donors are required to donate at least \$200,000 a year to recommended groups, and their combined donations to those groups now total more than \$500 million."

In 2015, the DA recommended "its donors step up check writing to a handful of endorsed groups that have supported the Black Lives Matter movement."

What sort of 'ideals' is all this big capitalist money promoting? The key organisation of the Black Lives Matter (BLM) movement, is officially called Black Lives Matter Global Network Foundation,

"The BLMF provides grants, movement building resources, and technical assistance to organizations working to advance the leadership and vision of young, Black, queer, feminists and immigrant leaders who are shaping and leading a national conversation about criminalization, policing and race in America," said woke US foundation Borealis announcing yet another big donation.

Also on their radical agenda are calls to defund the police, race-based reparations, voting rights for illegal immigrants, fossil-fuel divestment, an end to private education, a Communist-inspired

"universal basic income," and free college for blacks.

Faced with losing support over its most extreme policies, the BLMF recently removed a section of its website calling for a disruption of "the Western-prescribed nuclear family."

"We foster a queer affirming network. When we gather, we do so with the intention of freeing ourselves from the tight grip of heteronormative thinking, or rather, the belief that all in the world are heterosexual (unless s/he or they disclose otherwise)," said the now censored section.

What do we know about the people promoting these twisted ideas and using them to tear America apart and wind up impressionable and chippy youngsters on the streets of British cities too?

Black Lives Matter is led by its founders: Patrisse Khan-Cullors, an LGBT activist; Alicia Garza, "married" to a white female who identifies as a "transgender male." Opal Tometi, is a Nigerian who grew up in Arizona and is heavily involved with the United Nations.

All are very different to the foolish young people they seek to agitate and exploit, with the help of some of the richest people on the planet!

The Commission's statement describes the EU as "A Union that strives for more". VERY Different! The British Freedom Party

Jayda Fransen

Why do we need the British Freedom Party? There are already nationalist parties out there. All of them telling their small bands of supporters that – one day – the British public will wake up and vote them into power to put it all right.

The BFP is different. We refuse to insult your intelligence with fairy tales of an easy way back.

Official and unofficial opinion polls alike have shown for five decades that the majority of Britons regard mass immigration as a bad thing and regret the fact that the liberal elite have transformed our country.

Millions, many millions, know full well that what has been done to Britain by the elite is going to end – as Enoch Powell predicted – in "rivers of blood". They are already awake. Our people don't need "waking up", they need organising.

They don't need yet another party that spends all its time banging on about problems they already know;

legal, moral and constructive initiatives and structures for those who want to be part of the future.

We are not here to reassure those who whine that the politicians "should do something about it". Because that's the whole problem. The left-liberal elite - from Parliament to the media, from the corporate boardrooms to the bosses of the police and civil service – decided decades ago to 'do something': To destroy our traditions, smash up our identity, subvert our faith and turn the British people into a minority in our own homeland.

And they've already dragged us so far down the road that it is now too late to stop them. Culturally, this country is already a foreign place to anyone over fifty, while our past is unknown and alien to everyone

Thanks to the treason of the elite, we British are going to be the minority in Britain. In many areas we already are. But, unlike the fools and liars elsewhere on the 'right', the BFP neither denies this truth nor accepts that it means there is nothing we can do.

According to the Vice-President of the European Commission, Margaritis Schinas, they "see the migration

Straight, White, Male... and Invisible?

It only confirms what you'll have seen with your own eyes, but a sadly less-than-shocking report has confirmed that ethnic minorities and LGBTQ+ couples are heavily and increasingly over-represented on TV.

Women too get a lot of coverage, leaving the "straight, white, male" as the figure being left out of the picture (unless he's a bumbling idiot, of course, plenty of those are portrayed online).

As public outrage at this totalitarianism grew, the politician backtracked somewhat, saying that the vaccine "is not going to be compulsory" and that "we can't hold someone down and make them take it."

In May the US Federal government announced that it was giving \$1.2 billion towards the development of AstraZeneca's coronavirus vaccine as part of President Trump's 'Operation Warp Speed' programme.

Trump's avid support for hasty vaccination in response to the massively overhyped coronavirus puts him potentially on a collision course with the millions of deeply religious and well-informed anti-elite Americans who form the backbone of his support base.

COVID Disaster – WHO is to blame?

Who benefits? To solve a great crime or mystery, that's always the first question to ask.

If something has happened that has turned your world upside down and ruined your life, the best way to find who to blame is to search for someone with a motive.

The exploitation of a virus about as dangerous as most normal annual flu outbreaks as the excuse to 're-set' our lives is indeed a great crime.

So all sorts of answers have been suggested to explain who's behind the scandemic.

Rich and powerful elites have always been quick to exploit chances to increase their wealth and power over ordinary people like us, and all sorts of vested interest groups have benefitted from COVID. But whatever assets they grab or power they seize during this artificial crisis, that doesn't *necessarily* mean they caused it.

There *is*, however, one particular elite group which is not only openly using Covid as the

Until they hit on the idea of creating a 'man-made climate change emergency' that could be used as the excuse for 'global governance'.

But whatever assets they grab or power they seize during this artificial crisis, that doesn't *necessarily* mean they caused it.

There *is*, however, one particular elite group which is not only openly using Covid as the excuse for a massive global power grab, but also *caused* the crisis; they *produced* the policy which led to the avalanche of nursing home deaths with provided the surge in fatalities which made their fear-mongering propaganda saleable.

I'm not just talking about corrupt UK government 'advisors' who stand to make fortunes from the vaccines they want to force on us; they're just grifting chancers. The motor of the entire scam is the United Nations, together with the closely-linked World Health Organisation and the World Economic Forum.

From its very formation, the United Nations was intended to evolve into a One World

Government, but for all the efforts of its socialist bureaucrats and international banker allies, progress was slow.

Until they hit on the idea of creating a 'man-made climate change emergency' that could be used as the excuse for 'global governance'.

They started in the 1970s by claiming that industrial pollution was about the tip the world into a New Ice Age, but when the climate stubbornly refused to cool down as predicted, they did a U-turn. Once minute we were all going to freeze to death, the next we're going to be cooked alive.

With bent statistics and 'scientists' whose research grants depended on stoking the hysteria, they used the global warming hoax to push many governments into an orgy of deindustrialisation taxes, decommissioning fossil fuel power stations and switching to inefficient alternatives such as highly unreliable wind power.

In Britain's parliament, every MP bar two voted for the Climate Change Act, whose crazy and impossible targets now cost us about £20 Billion every year. But even these changes and extra taxes weren't enough for the globalists.

So the United Nations, acting through its World Health Organisation arm, set about turning a typical new respiratory virus into a 21st century Plague. This was partly done by hysterical propaganda based on the same flawed computer models as the global warming hoax.

But they were so desperate to frighten the world into compliance that they then did something far worse:

The World Health Organisation sent out emergency guidelines to every government,

urging them to clear hospitals for the predicted wave of coronavirus victims by sending elderly 'bed blocking' patients to nursing homes – without testing them for the virus before doing so.

Like any flu or other respiratory virus, COVID-19 is particularly dangerous to the very old, especially those already suffering from terminal illness or dementia.

The policy inevitably produced a wholly predictable spike in (often only slightly early) deaths.

The surge in deaths quickly created the 'crisis' that allowed pro-globalist media outlets to stampede even initially sceptical governments into further panicked reactions.

The rest of that part of the story so far you already know from bitter personal experience.

What you may not know is that the United Nations globalists and their international corporate allies are now openly plotting to use the crisis that they created as the excuse for a complete 'Global Reset' which will change our world – primarily by smashing the average standard of living in developed countries. "Hello mum, that's us!"

The economic disaster caused by their lockdown policies will also conveniently cover up the fact that their international banker cronies had saddled the world with such a vast pile of unrepayable debt that the whole financial system was on the point of collapse already.

This way, they can blame a virus, rather than their own greed and corruption.

As their own publicity material shows, the

their FakeNews media allies have forced on us all.

Dr. Anthony Fauci, the USA's Scaremonger-in-Chief, wrote in the Sept 3rd edition of the medical journal *Cell* that "combating future pandemics will require rebuilding the infrastructures of human existence," including greater submission to international authority.

"Living in greater harmony with nature will require changes in human behavior as well as other radical changes that may take decades to achieve: rebuilding the infrastructures of human existence, from cities to homes to workplaces..... to recreational and

gatherings venues," Fauci wrote shamelessly.

"In such a transformation we will need to prioritize changes in those human behaviors that constitute risks for the emergence of infectious diseases," he continued. "Chief among them are reducing crowding at home, work, and in public places as well as minimizing environmental perturbations such as deforestation, intense urbanization, and intensive animal farming. Equally important are ending global poverty, improving sanitation and hygiene, and reducing unsafe exposure to animals.... global biosafety cooperation should be improved by strengthening the United Nations and its agencies, particularly the World Health Organization".

To put that into plain English: "We will end the artificial crisis when the peasants give up air travel, foreign holidays, private cars, free speech, meat and dairy products, building

dangerous as most normal annual flu outbreaks as the excuse to 're-set' our lives is indeed a great crime.

As their own publicity material shows, the globalist criminals and their politician puppets now don't even try to hide what they're doing.

Even as their lockdown diktats destroy cheap air travel and foreign holidays for the despised masses, they hold international jet-set conferences to plot the further destruction of our 'wasteful economy' (i.e. comfortable lives a little bit like theirs).

They blatantly boast in elite in-house magazines such as *The Economist* about their plans to exploit the disaster they and

to international authority.

"Living in greater harmony with nature will require changes in human behavior as well as other radical changes that may take decades to achieve: rebuilding the infrastructures of human existence, from cities to homes to workplaces..... to recreational and

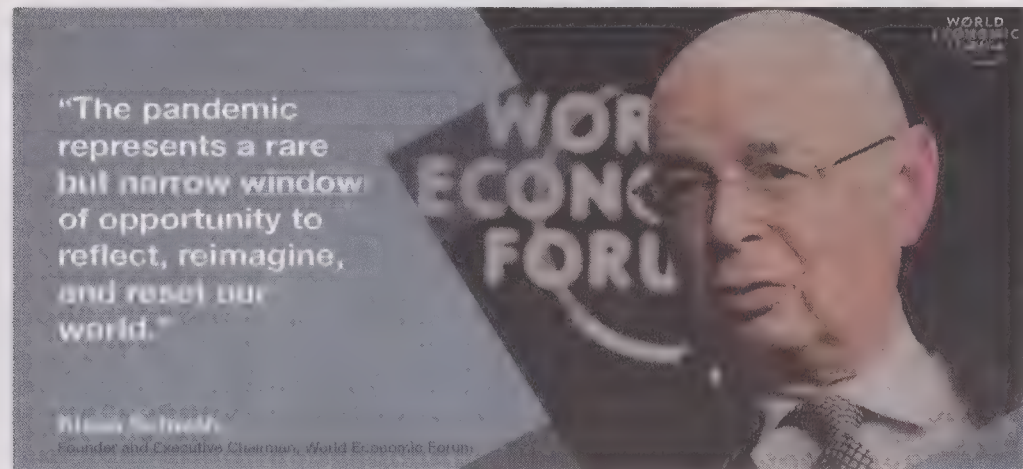

gatherings venues," Fauci wrote shamelessly.

"In such a transformation we will need to prioritize changes in those human behaviors that constitute risks for the emergence of infectious diseases," he continued. "Chief among them are reducing crowding at home, work, and in public places as well as minimizing environmental perturbations such as deforestation, intense urbanization, and intensive animal farming. Equally important are ending global poverty, improving sanitation and hygiene, and reducing unsafe exposure to animals.... global biosafety cooperation should be improved by strengthening the United Nations and its agencies, particularly the World Health Organization".

To put that into plain English: "We will end the artificial crisis when the peasants give up air travel, foreign holidays, private cars, free speech, meat and dairy products, building their own independent businesses, and electing their own governments.

"Instead they'll have short staycations, over-priced public transport (for mask wearers only), blackouts, censored corporate media, insect protein, basic income handouts, surveillance, compulsory ID chip vaccinations and a benevolent One World dictatorship by our alliance of giant woke corporations and socialist bureaucrats."

Northern Ireland's Public Prosecution Service has announced it will not prosecute another 15 former soldiers in connection with the Bloody Sunday shootings in Londonderry over 48 years ago.

The fifteen soldiers, now all elderly veterans, were members of our Army's elite Parachute Regiment.

Sinn Féin/IRA, as always, were quick to denounce the ruling. Martina Anderson, Sinn Féin MEP and failed bomber, said the ruling was "sad and disappointing."

Soldier F, the only soldier currently facing prosecution for the shootings, is due to appear in a Londonderry courtroom later this year after his trial was delayed by the Covid crisis.

Unity? Yes, but only with genuine nationalists!

In response to repeated calls for 'unity' between various 'right-wing' movements and figureheads in the UK, the British Freedom Party set out our firm stance on the issue.

The cry for 'unity' is always heard in 'right-wing' circles.

So where does the British Freedom Party stand on the unity question?

Well, first people must understand that just because the liberal media lump us all together, we are most definitely NOT the same.

A significant number of self-proclaimed nationalists and patriots are pro-LGBTQP, support the global elite's Satanic project to use mass immigration and miscegenation to mix and destroy the nations and races created separately by God, and support moral and social cancers such as abortion and feminism.

In other words, these people are simply *liberals*.

The only position we share with them is concern over the spread of Islam in the former nations of

Consider that only a couple of years ago, on-the-run IRA members were granted "comfort letters," essentially pardons for their atrocities, while aging soldiers were dipping into their pensions to pay for lawyers' fees.

The same far-left lawyers and Marxist groups are now calling for fresh prosecutions against a new generation of veterans returning home from the wars in Iraq and Afghanistan.

But do not expect our 'Conservative' government to step in to protect the very people who put their bodies in the way to shield us from the terrorists' bullets.

The only position we share with them is concern over the spread of Islam in the former nations of Christendom.

And almost everything else they stand for in fact facilitates the Islamist takeover by further weakening our traditions, birthrate and people.

The picture above this article gives a classic example of what we're talking about.

It shows the lesbian leader of For Britain discussing the alleged wonders of a campaign by 'Gays Against Sharia' with an ultra-Zionist activist who rails against Muslim ritual slaughter and genital mutilation - without saying a word about precisely the same evils when they are perpetrated by his own in-group.

Both of them also support the slaughter of unborn babies in abortion mills - the modern equivalent of sacrifices to Moloch.

The British Freedom Party's stance:

We believe in unity. Unity with fellow traditional, Bible-true Christians.

Unity with patriots who defend their nations from ALL threatening alien forces, not just a carefully selected one or two.

Unity with those who stand up not only against the appalling abuse of young girls by Muslim grooming gangs, but also against the appalling abuse of young boys by homosexuals and its glorification in the media and the education system.

But when people urge us to 'unify' with Sodomites, baby-killers and those who go along with the plan to eliminate the white race through a slow genocide programme, we can only refer them to 2 Corinthians 6:14 *"Be ye not unequally yoked together with unbelievers, for what fellowship hath righteousness with unrighteousness? And what communion hath light with darkness?"*

We in the British Freedom Party are willing to work with all genuine nationalists on projects that benefit the indigenous English, Scottish, Welsh and Irish (both varieties!) people of our islands.

How do we judge who is genuine? Not by examining minor details of policy, tactics or personality, but by asking three simple questions:

1. Do you believe that the indigenous peoples of Britain have a particular claim to and special rights in these our islands?

2. Do you believe in the one true Christian God and subscribe to the Nicene Creed, or at least value traditionalist Christianity as the bedrock of our identity and a vital part of the coming resistance to liberalism and Islamisation?

3. Do you understand that we are in a long term demographic and cultural war for survival and that liberal obsessions such as LGBTQ 'rights', abortion, feminism and mass immigration are destructive, immoral and unacceptable?

Everyone who answers 'yes' to all three of these fundamental questions is welcome to join us or to put forward proposals for working together.

Anyone who answers 'no' is part of the problem and their place is not with us.

The British Freedom Party is here to provide solutions that will help provide a future for our nations and for White children.

SA Minister: Farm Murders not a Priority Crime

Following a new wave of attacks and murders on White farmers in South Africa, the country's Police Minister, Bheki Cele, said farm murders and attacks cannot be classified as priority crimes.

Data released by the South African government in 2018 showed that the number of farm

attacks had increased between 2012 and 2018 and according to the Transvaal Agricultural Union of South Africa, farm murders have increased since then.

Since the end of Apartheid, there have been thousands of killings of White farmers in South Africa.

Diane Kohler Barnard of the

Democratic Alliance Party claims South Africa 'has lost two-thirds of its commercial farmers' due to violence committed against White farmers.

Last month in Parliament, Nonhlanhla Mkhonto, MP for the black supremacist Economic Freedom Fighters party, suggested

that some white farmers 'invited violence,' saying: "Farmers themselves are not innocent players in this debate."

Once one of the richest nations of earth, one million white South Africans have left since Apartheid fell, as the country descended into poverty, pestilence, and violence.

Life-changing Call to Arms: *Deus Vult* Reviewed

"The most exciting, comprehensive and gripping book of hardcore traditionalist nationalism produced in the English language for decades. In fact, I can't think of any set of patriotic writings that begin to come close to what the authors of Deus Vult have achieved." Jayda Fransen

Subtitled 'Handbook for Resisting the Great Replacement', *Deus Vult* is the first book produced by the Knights Templar International. This lay Order has made its mission the re-establishment of 'muscular Christianity' as the bedrock of the nationalist struggle to help our people resist the dangers posed by liberalism, Cultural Marxism and Islamification.

Deus Vult is a stunningly produced, 35 chapter, heavyweight yet very readable hardback. Written in serious but unpretentious and accessible style, each is a stand-alone essay dealing with a different aspect of the threats against us and the ideas, attitudes and actions needed to overcome them.

The authors explain how having children is only the beginning of the long struggle. Emphasis is laid on the crucial importance of protecting the minds and souls of the next generation through homeschooling, as well as turning off the TV and teaching them about our great heritage and real life skills.

Continuing the practical advice, an important chapter gives young men rare guidance that – in a time of absent fathers and feminised indoctrination in schools and the media – all too many will otherwise never learn.

A central theme is the need for traditionalists and nationalists to take steps to build lives and communities as separated as possible from the "sinking liberal Titanic". A Flag For Every House

British Freedom Party activists have been decorating the streets of the UK as part of our 'A Flag for Every House' campaign.

Teams of volunteers have provided houses across the UK with 6ft poles, decorated with our Union Flag, and mounted them to the homes of British patriots.

The programme was introduced by party leader Jayda Fransen who isn't shy of rolling up her sleeves and getting involved!

The purpose of this campaign, – aside from creating a display of national pride – has a much deeper, long term aim.

Care is taken to explain the value of traditionalist Christianity to our long-term struggle in several chapters that, while not 'preachy', are utterly uncompromising and inspirational. The work of the Order itself is also explained.

The longest chapter is a comprehensive guide on what to do if you ever get arrested. Knowing this is nowadays vital not only for activists; ordinary Brits also can all too easily fall foul of the PC brigade or the covidcops.

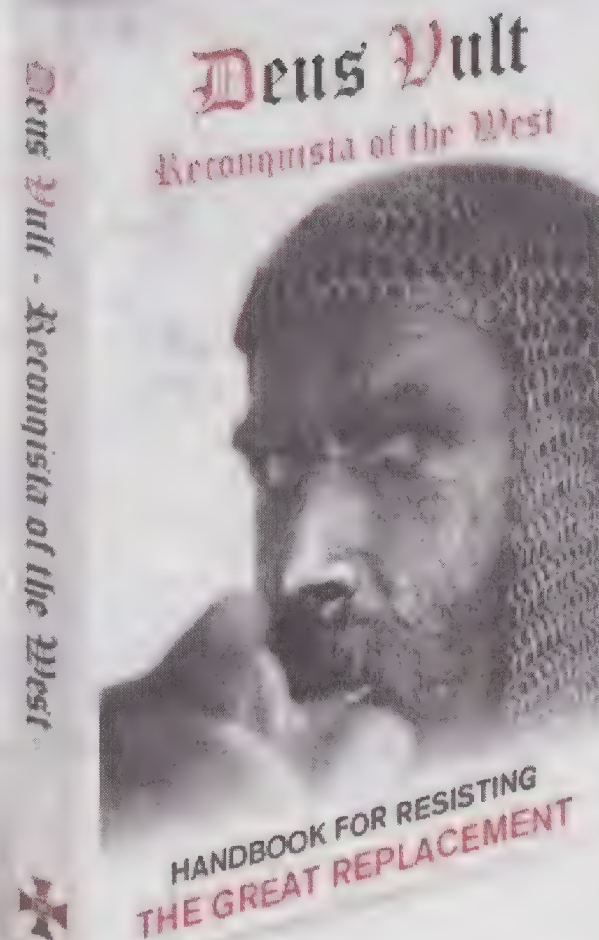

The chapter was written, refined

While it's worth buying and studying *Deus Vult* for the 'Arrested' chapter alone, there is a great deal more to it than that. The chapters cover a wide

range of subjects and deliver extensive knowledge and rare insights, combined with some crucial and deeply practical advice for personal improvement and winning strategies for effective organisation.

legal definition, it is subject to interpretation.

The same principle can be applied to the Government's recent clampdown on face-coverings.

Over the past few months, Boris Johnson, in his new Cromwellian role of Lord Protector, has added to the seemingly every growing list of places in which a person must cover their face.

At the same time, the Government have clearly set out exemptions to the now obligatory act of covering one's face whilst stating that the list is not exhaustive.

They have even provided a template 'exemption card' that can be shown by those who fall within the exempt category.

However, once again, the list of conditions that qualify a person as 'exempt'

One might argue that the term 'routinely' is an ambiguous and unnecessary term to have included; I often question whether these vague and shoddily drafted regulations aren't intentionally ambiguous, although it could well be that they simply have been drafted by the most incompetent of law makers.

In any event, there are clear loopholes, if not pitfalls in the current regulations, which can be relied upon by those facing hefty fines.

My free Advocacy Service is still running for those who have fallen victim to this new Orwellian system of governance.

Since the start of 'The Great Lockdown of 2020', countless new rules, regulations and restrictions have been placed upon us.

No longer free citizens of our own land (although it is arguable that we have not been for quite some time), these draconian measures have even extended to what we wear; namely, facemasks.

Who could ever have imagined that we would live through a period of world history during which it is illegal to show your face in the United Kingdom?

I can honestly say I have never witnessed such a gross and frightening abuse of authority, certainly in my own country.

At the very least, the authorities concerned in this matter would have included the police (who took the decision to make the arrest), the Crown Prosecution Service (who would have made the decision to charge the woman), an advocate for the State (who presented the case to the Court) and a Judge (who agreed the 'evidence' put forward by the prosecution was sufficient to convict and sentence the woman).

Wales alone.

Data recorded by the National Police Chiefs' Council (NPCC) shows that most fines were issued to young men aged 18 to 24, and the main reasons for fines were driving with non-household members, house parties, large gatherings and camping.

During that period, I was made aware of a number of fines that had been issued with regards to the 'essential items' part of the regulations.

It may now seem like a distant memory, but many of you may recall the repeated 'instructions' from the government to 'only shop for essential items'.

This was, and remains one of the greatest flaws in the Coronavirus legislation; it lacks definition.

Unfortunately, my prediction was on the money.

We saw countless examples of people, *our* people, being unlawfully fined and harassed by overzealous 'Covid Cops'. However the breach of power did not stop with the newly formed Stasi.

One of the most shocking instances I personally became aware of concerned a woman in the North of England who was arrested, incarcerated, tried (in her absence and without legal representation), convicted and sentenced... for a crime that did not exist!

As someone with a legal background, I take a keen interest in such matters, and

Not one of the aforementioned authorities / individuals picked up on the fact that the crime does not even exist.

During the course of the lockdown, in particular within the first few weeks, I received countless messages from individuals who faced their own form of persecution, ranging from fines to sheer harassment by the new bully boys in police uniform. Thankfully, all of those affected had their fines revoked and complaints were logged against the offending police forces.

The above-mentioned woman was also cleared of breaking an imaginary law, albeit after a significant period in custody and an all-round ordeal to carry with her.

By the time the lockdown restrictions had been eased on 13th May, almost 17,000 fines had been issued in England and

Wales alone.

Data recorded by the National Police Chiefs' Council (NPCC) shows that most fines were issued to young men aged 18 to 24, and the main reasons for fines were driving with non-household members, house parties, large gatherings and camping.

If that lady had been an alcoholic - and for the record, I am not stating for one moment that she was - it might be argued that a sudden and complete deprivation of alcohol might have caused more damage to her physical and mental health than a more structured recovery programme overseen by qualified professionals.

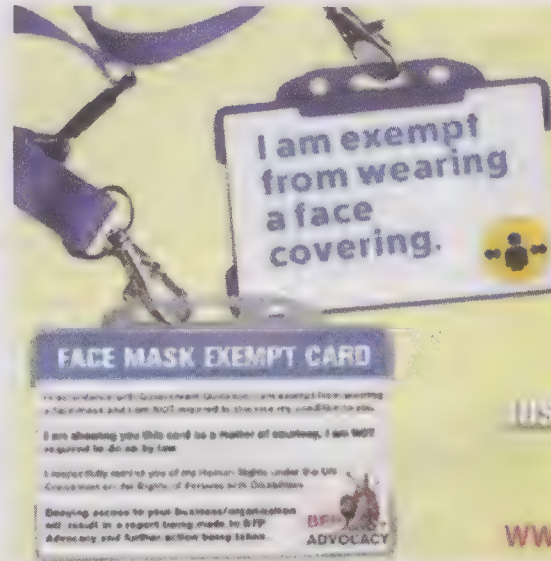

The simple fact is, when something which is directly referenced in legislation, has no

One prime example is that, according to the British government, a person is exempt from having to wear a face-mask: "where putting on, wearing or removing a face covering will cause you severe distress".

How does one define severe distress? Is it even possible to quantify distress for that matter?

What one person might consider to be mild distress may feel like severe distress to another.

So, once again, a lack of legal definition (which I assert would be impossible to provide in this instance), leaves the legislation open to interpretation.

Personally speaking, I do not wear a mask. I avouch that the distress I feel by placing a covering over my face as part of a new draconian regime is severe enough to render me exempt under the current guidance.

Not everyone wants to argue the toss on a regular basis with meddlesome and impertinent shop assistants. For a young mother wanting to nip into the shop for a pint of milk, having an argument over not wearing a face-covering may simply feel like it is not worth the hassle. I have friends who fall into this category. They live in parts of England where it is commonplace (albeit unlawful) for shop 'marshals' to deny them entry unless they don a face covering. For many of us, the prospect of engaging in a quasi-legal dispute with such people can cause more distress than simply chucking on a face nappy!

If you fall into that category, why not mix your compliance with defiance? Wear the 'mandatory' face-covering that enables

Court) and a Judge (who agreed the 'evidence' put forward by the prosecution was sufficient to convict and sentence the woman).

Not one of the aforementioned authorities / individuals picked up on the fact that the crime does not even exist.

During the course of the lockdown, in particular within the first few weeks, I received countless messages from individuals who faced their own form of persecution, ranging from fines to sheer harassment by the new bully boys in police uniform. Thankfully, all of those affected had their fines revoked and complaints were logged against the offending police forces.

The above-mentioned woman was also cleared of breaking an imaginary law, albeit after a significant period in custody and an all-round ordeal to carry with her.

By the time the lockdown restrictions had been eased on 13th May, almost 17,000 fines had been issued in England and

part of the regulations.

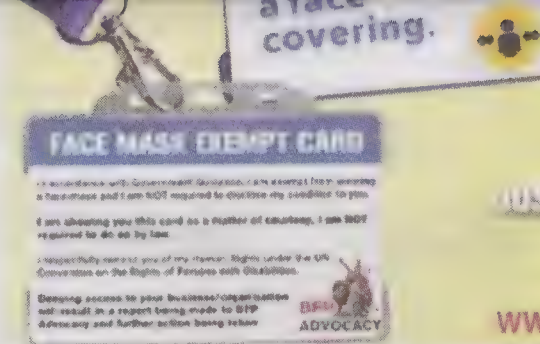

It may now seem like a distant memory, but many of you may recall the repeated 'instructions' from the government to 'only shop for essential items'.

This was, and remains one of the greatest flaws in the Coronavirus legislation; it lacks definition.

For example, a lady was fined after being 'caught' going to her local shop for wine. The fine was issued on the basis that wine is not an essential item, but who decides what is essential to any particular individual?

If that lady had been an alcoholic - and for the record, I am not stating for one moment that she was - it might be argued that a sudden and complete deprivation of alcohol might have caused more damage to her physical and mental health than a more structured recovery programme overseen by qualified professionals.

The simple fact is, when something which is directly referenced in legislation, has no

are ambiguous due to a lack of legal definition.

One prime example is that, according to the British government, a person is exempt from having to wear a face-mask: "where putting on, wearing or removing a face covering will cause you severe distress".

How does one define severe distress? Is it even possible to quantify distress for that matter?

What one person might consider to be mild distress may feel like severe distress to another.

So, once again, a lack of legal definition (which I assert would be impossible to provide in this instance), leaves the legislation open to interpretation.

Personally speaking, I do not wear a mask. I avouch that the distress I feel by placing a covering over my face as part of a new draconian regime is severe enough to render me exempt under the current guidance.

I do carry / wear an exemption card, as I find this negates the often tedious shouts by power hungry shop assistants of 'where is your mask?'

Once again, these public and often over-the-top outbursts are in direct contravention of the governments exemptions guidance which states: 'Those who have an age, health or disability reason for not wearing a face covering should not be routinely asked to give any written evidence of this, this includes exemption cards.'

governments guidance.

For those readers who would rather comply with the regulations to wear a face mask; I have found a way for you too to make your political stand.

Not everyone wants to argue the toss on a regular basis with meddlesome and impertinent shop assistants. For a young mother wanting to nip into the shop for a pint of milk, having an argument over not wearing a face-covering may simply feel like it is not worth the hassle. I have friends who fall into this category. They live in parts of England where it is commonplace (albeit unlawful) for shop 'marshals' to deny them entry unless they don a face covering. For many of us, the prospect of engaging in a quasi-legal dispute with such people can cause more distress than simply chucking on a face nappy!

If you fall into that category, why not mix your compliance with defiance? Wear the 'mandatory' face-covering that enables you to go about your day to day life without hassle from jumped-up shop assistants and security guards, whilst openly showing your contempt for the new Nanny State regime.

'Compliance with Defiance' or 'Exemption without Question': The options are yours, but it is important to me that you know, at the time of writing, you do still have options!

The Vanishing British

Where have all the Brits gone? To answer the question, it's time to understand the West's Crisis of the Empty Cradles

If you're old enough to remember any English city thirty years ago, you can't miss the massive change in the faces you see and the voices you hear when you walk down the street. The same is true of Glasgow and Cardiff too.

Even if you're young, just compare photos of the Londoners who crowded into Trafalgar Square to celebrate VE Day in 1945, with photos of the average group of people in London today. Or in Birmingham, Leicester, Bradford, Swansea, etc.

It's the biggest demographic change since our earliest ancestors came here at the end of the Ice Age. Most people - if they are honest and think no strangers are eaves-dropping - will admit that they are

without replacing themselves. Died and left the vacuum which the new arrivals fill.

The full statistics are, as usual, almost impossible to uncover, because the ruling elite long ago decided to replace us in our own homeland: Immigrants make cheaper labour and bigger profits.

the British birthrate are invariably distorted by including the fast-breeding immigrants: We are told that our birthrate is 1.7 children per woman of child-bearing age.

Even if that was true, it would still spell disaster, because it's so far under the replacement rate of 2.1 that, if carried on for three breeding generations, the population falls by nearly half.

Our birth rate started to crash in the 1960s, thanks to the Pill and legalised abortion. Since a breeding generation is only 25 years, we are *already* almost three generations into that decline. That explains why London changed from British to majority immigrant in just a few decades. People talk about 'white flight', but in reality it's 'white die-off'.

Defund the WHO

With even the Johnson regime talking about slashing Britain's huge foreign aid, our handouts to the World Health Organisation should be first for the chop. But despite the mountain of lockdown debt, and his election pledge to cut our foreign aid tax handouts, Boris Johnson has agreed to a massive 30% increase in UK contributions to the WHO.

Now that Donald Trump has stopped the USA's subsidy to the global communist WHO, the UK is the biggest donor.

Our \$463.4 million 'donation' in 2018/19 is set to rise steeply as the WHO bureaucrats demand even more. Britain also tops the list of 'core voluntary contributions', which us cost around £50 million every year.

Britain gives the WHO more even than Bill Gates, who uses his 'donations' to steer the global body to favour vaccines and other

But no-one can deny that it has happened - and that this Great Replacement is actually speeding up.

When people talk about this demographic change, they always talk about immigration, or about the high birth rates of certain immigrant communities. No-one mentions the other side of the demographic coin: The collapsed birth rate of the ethnic British (and indeed all the other indigenous nations of Europe).

Why do so many 'Christians' wrongly support Israel?

The Rapture, which crooked televangelists tell their gullible flocks they will sweep them up to Heaven if the Israeli lobby and Pentagon warmongers manage to start WW3, is just one of the heretical products of Christian Zionism

Christian Zionism is a heresy and political movement that embraces the most extreme ideological positions of Zionism. It both works to the detriment of the Christian minority in Israel and threatens to spark World War Three.

The origins of Christian Zionism lie in the theology of dispensationalism. This false biblical interpretation emerged in 19th century England, largely through the efforts of Irish Anglican ministers Louis Way and John Nelson Darby. They derived it not from the Bible but from a counter-reformation

Jesus' return.

This fantasy is one of the things that have made some American presidents, including Ronald Reagan, quite prepared to press the button for nuclear war. This nonsense isn't some harmless quirk – it could get us all killed!

The problem for the mega-rich TV evangelicals and their Zionist backers is that their claims can only be believed by people with a stunning ignorance of the Bible.

The real position can be judged from the clear message in Galatians 6. This crucial part of the New Testament makes it clear that, from the time the Jews broke the covenant and rejected Jesus, the true Israel has been a spiritual entity.

They cite Genesis 12:3 to support this pseudo-religious protection racket: "I will bless those who bless you and him who curses you, I will curse".

Christian Zionist Jerry Falwell's Moral Majority organised a powerful voting bloc and was credited for giving Ronald Reagan the winning edge in the 1980 elections.

One of the Moral Majority's founding principles was "support for Israel and Jewish people everywhere."

To this huge electoral clout is added the power of the Zionist lobby, the influence of the overwhelmingly Jewish-owned mass media, and the control of many top politicians through the video files of the Mossad-created Epstein paedophile honey trap.

Taken together, this accounts for the slavish devotion shown by US administrations to Israel and the vast amounts of US taxpayers' money paid to Tel Aviv in tribute.

This is despite Israel's close alliance with Islamist extremist Saudi Arabia, shocking record of spying on its US sugar daddy and the terror attack on the USS Liberty.

On top of that, the fascist Israeli state has been heavily involved in every Deep State effort to use hoaxes such as non-existent Weapons of Mass Destruction and false flag attacks to try to drag America and Britain into war for Israel in Iraq, Syria and Iran.

We all oppose the equally false doctrines of, and the threats posed by, Islamism, but knowing these facts, no true Christian nationalist can support the Zionist state either.

Muslim Council of Britain censor BBC report on Jihadi terror attack

Centre for Media Monitoring (CfMM) @cfmmuk · Sep 8

Thank you @BBCNews for changing the headline on the front page of the BBC website, following complaints from CfMM and others.

It is extremely important, especially when reporting on terrorism, that care is taken to not give a misleading impression of the facts.

BEFORE: The original headline on the BBC website, which implied the bomber was praying an hour before the blast.

Arena bomber 'seen praying an hour before blast'

AFTER: The revised headline on the BBC website, which correctly states the bomber drew suspicion ahead of the blast.

Arena bomber drew suspicion ahead of blast

Manchester

The PC censor must have been sleeping on the job, because just for once the BBC ran a headline that told the truth about Islamist terror. The rare mistake was quickly put right after eagle-eyed censors at the Muslim Council of Britain (MCB) spotted the danger and ordered the BBC to fix it. In a report on the trial of the brother of the Manchester Bomber, the BBC revealed that the terrorist drew attention to himself through his Islamic prayer ritual shortly before he slaughtered 22 innocent people. The Centre for

Media Monitoring – a censorship project run by the MCB – complained to the broadcaster, and the headline was quickly changed in an effort to cover up the fanatic's Islamist motivation.

The MCB said that it acted to make sure that "a misleading impression of the facts" was not given. But in this case, it is the BBC's second headline that is 'misleading'. While not all Muslims are terrorists, nearly all terrorists are followers of the hardcore Islamism that is promoted in the large number of mosques funded by the

ultra-Islamist dictatorships in Saudi Arabia and Turkey. To try to conceal this truth by hiding the Islamist motivation for such terror attacks is to deliberately mislead the public. Mind you, that's something the BBC has specialised in for years! As for the MCB, it is strongly influenced by the Islamist ideas and long-term take-over strategy of the Muslim Brotherhood. So, one of their top priorities is to make sure that no one thinks that radical Islam has anything to do with terrorism. If only they could convince the jihad terrorists....
